When you log in to DevResults, the first page you see is your dashboard. Each user can design their dashboard to show information relevant to them. Dashboards are edited by editing, arranging, resizing, adding, and removing tiles.

In this page:

- Editing the dashboard
- Types of tiles
- The legacy dashboard (soon to be discontinued)

## **Editing the Dashboard**

The dashboard view allows you to create multiple views that you can configure base on user and audience needs. To create a new dashboard, click the (+) button on the menu next to the **System Default** dashboard. Please note that the **System Default** dashboard is view-only and cannot be edited. Once you click the (+) button, you can then select whether to create a new dashboard or add an existing one. You can select **Add Existing Dashboard** to add a shared dashboard by clicking on the (+) **Add** button which will give you a view-only copy that reflects any changes the owner makes. If you want to be able to edit a copy of a dashboard that another user has created, click the (+) **Add as a copy** button.

To add tiles on the new dashboard, click the **(+)** Add Tile button at the bottom of the page.

Select which tiles you would like to add.

DevResults   Kate's World Kate's Test Site		Quick search Q 🛛 Help
Dashboard Activities Results Calendar Documents	Add Tile ×	
Desinition         Teams         Audios         Calendaria         Description           FRAINING         System Default         Project Team Dashboard         Teams         Teams	Inclusion   Inclusion	TRAINING Manage Dashboards
DevResults		Add Tile

If your tile is specific to an indicator, you will then specify which indicator you are interested in. You can do so by clicking on the drop down menu and clicking on the indicator you would like to add.

Add Tile		×
Indicator Map	Indicator Pie Abdraf targets And Factor Targ	
★ Mercury ★ Germa ★ Apolio Bookmarked Activities	Image: Same of the world     Same the world       Image: Same of the world     Constant of the world       Image: Same of the world     Image: World wor	1
Indicator		•
Title	1.2a # of new users trained 1.2b_d # of new users administered the certification exam 1.2b_n # of new users certified	
Color	DV-1.1a # of backlog tasks completed DV-1.1b # of roadmap projects completed	
	DV-1.2a # of new users trained DV-1.2b % of new users who pass certification exam DV-1.2b_d # of new users administered the certification exam	dd
	DV-1.2b_n # of new users certified DV-1.3.1a Combined total number of views for videos posted in previous reporting period	

You can then change the title and color of the tile before clicking (+) Add to create the tile.

Add Tile					×
Indicator Map	Indicator Pie Chart Meressee Meressee Meressee Meressee Meressee Meressee Meressee Meressee	Indicator Targets And Actuals	92% Indicator Value	\$86 Program Statistic

The new dashboard also allows you to configure the way in which each tile is structured. To do so, click the gear icon on the top left corner of the tile. Depending on the tile, you can choose to download the selected tile, make changes to the way data is being calculated and displayed, and change the style of the visualization.

## **Types of Tiles**

There is a variety of tiles that you can show on your dashboard:

- Indicator Map Choropleth map for any single indicator.
- Indicator Pie Chart Pie chart for a single indicator.
- Indicator Targets and Actuals Column, stacked column, line, and area graph for a single indicator.
- Indicator Value Actual result value for a single indicator for a reporting period or cumulative over time.
- Program Statistic See Awarded, Obligated, Disbursed for information about program statistic options.
- Activity Map Shows administrative divisions, map overlays, and/or locations to which activities are assigned.
- My Bookmarked Activities List of (and links to) your bookmarked activities.
- My Bookmarked Indicators List of (and links to) your bookmarked indicators.
- My Tasks This tile shows any tasks assigned to you from all activity checklists. See Checklists for more information.

## Editing the Legacy Dashboard

We're in the process of phasing out the legacy dashboard. We strongly advise you to switch to only using the new dashboards. In the meantime, here are some tips if you must use the legacy dashboard:

To add a widget, click on (+) Add Widget in the bottom right of the dashboard.

sample org Demo Haiti		Quick search Q	Help 26

DevResults			Add Widget

Select which type of widget you'd like to add and click **(+)** Add.

The widget will appear at the bottom of your dashboard. You might need to scroll down to find it. The widget will appear with default formatting and information. Edit the widget by clicking on the gearbox in the top left of the widget.

In this example, the widget shows a graph of targets and actuals for one indicator. You can change the name of the widget, the color, and which indicator is displayed. Then click **Done**.

You can reposition the widget by dragging/dropping the colored bar at the top. You can resize it by clicking/holding the lower right-hand corner while adjusting the size.
