

INL DevResults User Guide: Data Entry (INL Users)

Navigate to Your Project from the DevResults Homepage

Once logged into DevResults, you can access your projects from the DevResults homepage in multiple ways. The following slides show how to navigate to your results **via Projects**.

To begin, navigate to the left top of the homepage and hover over the **Program Info** tab to select **Projects**.

The screenshot displays the DevResults homepage. At the top, the header includes the U.S. Department of State logo, the text "U.S. Department of State INL Monitoring Database", a search bar labeled "Quick search...", a "Help" button, and an "AR" button. Below the header is a navigation bar with tabs: "Data", "Program Info", "Tools", "Administration", and "Bookmarks". The "Program Info" tab is highlighted, and a red box is drawn around it with a red arrow pointing to the "Projects" sub-tab. A dropdown menu is visible under "Program Info", listing various options: "Data Definitions", "Indicators", "Data Tables", "Results Framework", "Disaggregations", "Narrative Questions", "Time", "Reporting Periods", "Reporting Cycles", "Geography", "Locations", "Administrative Divisions", "Map Overlays", and "Merge Duplicate Locations". The main content area on the left shows a world map with a red box around the "Projects" sub-tab. The right side of the page features a "Welcome to DevResults" section with a "Welcome to your DevResults site!" message, a link to the "Knowledge Base", and a link to the "Teach Yourself DevResults course". Below this is a search bar labeled "Search knowledge base..." and a "Help" button.

Find Project

Next, find the project for which you want to enter data. If you know the project name, type it in the search bar indicated below to filter the project list. Alternatively, you can use the filter menu on the left side of the screen to filter projects by Office/Section and choose the appropriate project.

The screenshot shows the 'Program Info' tab in the DevResults application. The 'Projects' section is active, displaying a list of 147 projects. A red box highlights the search bar at the top, which contains the text 'Search projects'. Below the search bar, a row of buttons includes 'Bookmark', 'Assign indicators', 'Assign program-specific tags', 'Assign INL bureau-wide tags', 'Assign reporting periods by dates', 'Assign users', 'Change status', and 'Delete'. A blue callout box points to the search bar with the text: 'Type all or part of the project name in the search bar to filter the list.' On the left side, a filter menu is visible with categories like 'Mechanism', 'Framework', 'INL Bureau-wide Tag', 'Program-specific Tag', 'Staff', 'Primary Implementing Partner Organization', and 'Office|Section'. The 'Office|Section' category is highlighted with a red box. A blue callout box points to this category with the text: 'To see only projects for a particular Office/Section, filter the project list by checking the box to the left of the Office/Section desired.' The main table displays project details with columns for Name, Ref #, Start Date, and Status. The DevResults logo is in the bottom left, and a 'New Project' button is in the bottom right.

SCROLL

Description

Project Summary

In countries with the political will to increase investigative leads and uncover illegal goods, canines (K9s) represent a highly effective, relatively inexpensive means to increase INL partner detection capacity in a number of key areas. Developing this capacity in most instances seeks to accomplish one or more of the following purposes:

- Detecting contraband
- Deterring illegal transit of illicit goods
- Identifying investigative leads and evidence of criminal acts
- Contributing to public safety/ disaster response / counterterrorism

Goals

1. The partner government sustains a humane, impartially deployed, certified K9 program that detects illicit goods and crime scene evidence.

- Sustains means the partner government provides ongoing resources to enable the K9 unit's continued functioning beyond INL's assistance. Humane means the canines living conditions and access to veterinary care meet the standards laid out in the INL SOPP for EUM, Section 7: Canine EUM Procedures and NIST. Impartially deployed means police consistently follow the procedures for when, where, and with whom canines deploy, and how to conduct searches in response to canine signals. A canine signal is the trained response a detection dog gives its handler when it detects a targeted substance.

Enter Indicator Results

Enter Indicator Results — Three Options

Once you have navigated to your project's reporting period, all users will proceed to enter indicator results and narrative responses using the same set of steps, as shown in this section.

Once inside the selected reporting period, you will see your project's indicators. There are three options for entering your results data:

- A. Select an Indicator for Direct Entry — This option is best if you are only entering data for one indicator at a time. Click [here](#) to navigate directly to steps for this option.
- B. Download Indicator Results Template — This option is best for entering data for multiple indicators all at once. Click [here](#) to navigate directly to steps for this option.
- C. Update a Data Table — This option pertains to only those indicators linked to data tables. Click [here](#) to navigate directly to steps for this option.

The screenshot displays the 'DEMO Project: K9 Units' interface for the reporting period '2017 Apr-Jun'. The breadcrumb trail is: Home > Program Info > Time > Reporting Periods > 2017 Apr-Jun > DEMO Project > K9 Units. The page title is 'DEMO Project: K9 Units' with a subtitle '2017 Apr-Jun | INL/KM'. Below the title are tabs for 'Indicators', 'Data Tables', 'Narrative', 'Discussion', and 'Forms'. A search bar labeled 'Search indicators' is present. A table lists 18 indicators with columns for ID, Description, Entry Type, and Location. A settings menu is open on the right, showing options like 'Download direct entry template', 'Upload direct entry template', 'Download narrative responses', 'Recalculate computed results', and 'Recalculate logic checks'. A 'Columns' section allows selecting various data fields, with 'Comments' checked. Three blue callout boxes with letters A, B, and C point to specific elements: A points to the 'Indicators' tab, B points to the settings gear icon, and C points to the 'Direct Entry' column in the table.

DevResults Done

Click into each field to type your results by disaggregation (columns) and location (rows).

Add a comment to explain any aberrant or unusual results if necessary.

A.3 What To Do If Results Are “Zero”

If you do not have results to enter for a **direct entry or formula** indicator, do not type "N/A." (DevResults won't accept text where it expects a number). Instead, proceed as follows:

- If data are **missing** (i.e., there is a value but you don't know what it is) or **unreportable** (i.e., results are not measurable, or the indicator needs to be modified or changed), leave the cell blank and provide a comment that explains why no data were entered. For example, "disaggregations not applicable, need to update" or "data cannot be collected, suggest removing indicator."
- If no results are expected but the value is known to be zero, enter "0." For example, if you are reporting # trained, but no trainings have yet occurred, enter "0" and potentially add a note saying something like "trainings are not set to begin until the next quarter."

If you do not have results to enter for a **data table** indicator, comments are not available in the indicator entry itself. Instead, please leave comments and zeros in the discussion tab or in narrative responses.

If you do not have results to enter because the indicator results are not *measurable*, or because the indicator itself *needs to be modified or changed*, please see the [PIRS Change Request Guide](#) (under section five of the DevResults INL Help Page)

A.4 Repeat Data Entry for All Indicators

From the **Indicators** tab, repeat the data entry process for each additional indicator. Select each indicator by clicking on its name to directly enter results. To review this process, see the previous slides (see [here](#)).

Repeat this process until you have completed data entry for all indicators. Once you have added results for each indicator and checked your data entry for accuracy, proceed to [here](#) for next steps.

B.6 Upload Indicator Results (continued)

Choose the Excel File from the saved location and wait for the system to generate a green validation message (shown right). From there, you must wait until you receive an email from DevResults notifying you that your upload has been completed successfully before you can confirm that your results have been imported.

If your data fails to upload successfully, DevResults will inform you of the specific issue through a pop-up error message at this stage. You will need to correct the issue as indicated and then attempt to upload your data again.

Once you receive the completion email, **refresh the page** to see your uploaded results.

B.7 Confirm Upload

After refreshing the page, confirm that indicator results populate the fields by looking over the data in DevResults from the **Indicators** tab.

NOTE: The Status bar at the top right of the page indicates that data entry is in progress for this project.

DevResults

Done

If current results fields are blank for any indicators, check your downloaded templated for missing data! Simply fill in the fields you missed on the same template (remember to side-scroll!) and reupload the corrected copy to DevResults.

C.1 Option C: Data Table Indicators

If your project has indicators that populate results using information derived from a data table, you will need to update the data table to reflect information collected during the reporting period.

The data table can be updated directly (line by line) or via downloading a data table template (bulk). Choose the approach most advantageous to you based on the amount of data you need to add:

- **Direct Entry** – This option is best if your indicator involves simple edits to a data table, such as adding a single row of data. Click [here](#) to navigate directly to steps for this option.
- **Download Data Table Template** – This option is best if your data table is a large dataset (e.g. a table of trainees), and/or if you need to add many rows of data to the table. Click [here](#) to navigate directly to steps for this option.

KM.DDL.02.16 DEMO # of handlers certified by the partner government [Indicator Info](#)

i This is a data table indicator. Comments can be edited here.
To enter data, go to the data table: [View data table](#)

[Recalculate results](#) [Recalculate logic checks](#)

C.4 Data Table Indicators (continued)

Once you are in this Data Table view, you are ready to enter data. Click **Add New Row** to make new data entries in your indicator's data table.

The screenshot displays the 'DEMO Project: K9 Units' interface. At the top, there is a breadcrumb trail: Home > Program Info > Projects > DEMO Project: K9 Units. Below this is the title 'DEMO Project: K9 Units' and a sub-header 'INL/KM'. A horizontal menu contains several tabs: Overview, Performance, Budget, Geography, Checklists, Forms, Documents, Calendar, Photos, and Discussion. To the right of these tabs are 'Diagnostics' and 'History' buttons. Below the menu is a 'Data table' dropdown menu currently set to 'DEMO K9 Training Program Data Table'. A search bar with a magnifying glass icon and a settings gear icon is positioned to the right. Below the search bar, the 'Add new row' button (a blue button with a plus icon) is highlighted with a red box, and a large red arrow points to it from the right. Next to it is a 'Delete' button (a red button with a trash icon). Below these buttons, a message states: 'No data has been added to this data table. [Add a row](#) or [import data](#) to get started.' The footer of the page includes the 'DevResults' logo on the left, the text 'Created by Cassandra Stimpson (1 Aug 2021)' in the center, and a green 'Done' button on the right.

C.5 Data Table Indicators (continued)

After you hit Add New Row, a Data Form will pop up. Fill out the form with your data table entry. Hit **Save** after you fill out the Data Form.

C.9 Update Data Table Indicator via Template (continued)

Click **View Data Table** (shown below) to see the data table linked to your indicator.

The screenshot displays the DevResults user interface for a specific indicator. At the top, a breadcrumb trail shows the navigation path: Home > Program Info > Time > Reporting Periods > 2021 Jan-Mar > DEMO Project: K9 Units > DEMO # of handlers certified by the partner government. The status is shown as 'In Progress'. The main title is 'DEMO Project: K9 Units' for the period '2021 Jan-Mar | INL/KM'. Below this, there are tabs for 'Indicators', 'Data Tables', 'Narrative', 'Discussion', and 'Forms'. The current indicator is 'KM.DDL02.16 DEMO # of handlers certified by the partner government', with an 'Indicator Info' button. A message box states: 'This is a data table indicator. Comments can be edited here. To enter data, go to the data table: [View data table]'. The 'View data table' button is highlighted with a red box, and a large red arrow points to it from the left. At the bottom right of the message box, there are buttons for 'Recalculate results' and 'Recalculate logic checks'. The footer includes the DevResults logo and a green 'Done' button.

C.11 Update Data Table Indicator via Template

A file explorer window will appear to save the template as an Excel file. Name the file, then save it to your computer.

NOTE: Do not close DevResults after you save your file. You will return to the browser once you have finished filling out the template, as shown on the next slides.

C.12 Update Data Table Indicator via Template

Once saved, open the downloaded template in Excel.

You will see all the data table's columns arrayed across the top of the spreadsheet. Fill in the spreadsheet for each new row of data by clicking into the cells for each column. Although some fields will allow a freeform response, others will offer a drop-down menu from which you can choose an option (see example in Column J below).

The screenshot shows the Excel interface with the 'Table Design' tab active. The data table has the following columns: Date of Training, K9 ID, Location of Training, Handler First Name, Handler Surname, Handler Gender, Name of Training, Type of Training, Error Rate, Passed Training?, and Protect. The 'Passed Training?' column is highlighted with a red box, and its drop-down menu is open, showing 'TRUE' and 'FALSE' options. A blue callout box with white text explains that some fields have drop-down menus and that the data table design might need to be updated if an option is missing. A red arrow points to the right, with the text 'Scroll to the right!'.

Some fields will prompt you to select an option from a drop-down menu. For these fields, simply click the cell and choose the applicable response. If the drop-down menu does not contain an option that describes your row of data, the data table design might need to be updated. If so, see [here](#) for more information.

Scroll to the right!

NOTE: Not all columns may fit to your window! Remember to scroll to the right to ensure that data is entered for all columns.

C.13 Update Data Table Indicator via Template

As you finish entering data in each cell, you will notice that the template will automatically format your responses, as shown below.

Add as many rows of data to the template as necessary. If you do not have enough information to fill in all cells for your new row(s) of data, you can leave those cells blank. They can be updated after the upload is complete.

DEMO K9 Training Program Data T

Dates will automatically reformat to align with formatting in DevResults

Percentage fields will automatically convert your entries to reflect a percent. For instance, a "2" entered here automatically converts to "2.00%".

Leaving blanks in the template will not prevent it from uploading, but be sure to update your data after the upload is complete!

Save the file to your computer once you are finished entering data, then close the file. The file must be closed in order to initiate upload in the next step.

C.14 Update Data Table Indicator via Template

Return to DevResults on your web browser once you have saved and closed the data table template. Click the Settings icon and select **Import Data**.

C.16 Update Data Table Indicator via Template

Once you select the file to upload, DevResults will indicate that it is processing the template by displaying the name of the uploaded file in the dialog box. This box requires no action on your part (and often appears and disappears very quickly).

The screenshot shows the INL Monitoring Database interface. The top navigation bar includes the U.S. Department of State logo, the text 'U.S. Department of State INL Monitoring Database', a search bar, and a 'Help' button. Below the navigation bar, the breadcrumb trail reads 'Home > Program Info > Data Definitions > Data Tables > DEMO K9 Training Program Data Table'. The main heading is 'DEMO K9 Training Program Data Table'. Below this, there are tabs for 'Data' and 'Design'. A table with 12 columns is displayed: 'Key Value', 'Date of Training', 'K9 ID', 'Location of Training', 'Handler First Name', 'Handler Surname', 'Handler Gender', 'Name of Training', 'Type of Training', 'Error Rate', 'Passed Training?', and 'Project'. The table contains 7 rows of data. An 'Import Data' dialog box is open in the center, showing a 'Choose file' button and a 'Next' button. A red arrow points from the 'Choose file' button to the 'Name of Training' column header. Below the table, another 'Import Data' dialog box is shown, displaying the uploaded file name 'DEMO K9 Training Program Data Table.xlsx' and a 'Clear upload' button.

C.17 Update Data Table Indicator via Template

When DevResults is finished importing your template, a preview pane will appear indicating the rows of data to be imported. Look over your new rows to ensure that data is entered correctly.

On this preview pane, DevResults will give you the option to de-select columns in case you do not want to import all columns of data to your data table. You might want to do this if you added additional columns to your template (such as a line ID, or columns containing additional but unnecessary identifiers).

Adding 5 rows, updating no rows

Back Import data Done

Note that the blanks that were left in the example template carried through to DevResults. The upload can and will proceed with blanks! It is up to you whether you correct them in the original spreadsheet (and redo the upload) or if you adjust them manually (see next slide).

When you are ready, click **Import Data** (bottom right) to finalize the import.

NOTE: Click **Back** (bottom left) if you need to make any changes.

C.18 Update Data Table Indicator via Template

Once the import is complete, you will see your added row(s) of data in the data table in DevResults.

The screenshot displays the U.S. Department of State INL Monitoring Database interface. At the top, there is a navigation bar with links for Data, Program Info, Tools, Administration, and Bookmarks. A search bar and a Help button are also present. Below the navigation bar, the main content area shows the 'DEMO Project: K9 Units' page. A modal window titled 'Import Data' is open, displaying a green checkmark and the message 'The data was imported successfully', with a 'Done' button. Below the modal, there is a table titled 'DEMO K9 Training Program Data Table'. The table has columns for Key Value, Date of Training, K9 ID, Location of Training, Handler First Name, Handler Surname, Handler Gender, Name of Training, Type of Training, Error Rate, and Passed Training?. The table contains 12 rows of data. A red box highlights the first five rows of the table, indicating the data that was imported. The DevResults logo is visible in the bottom left corner, and a 'Done' button is in the bottom right corner.

Key Value	Date of Training	K9 ID	Location of Training	Handler First Name	Handler Surname	Handler Gender	Name of Training	Type of Training	Error Rate	Passed Training?
13	20 Feb 2021	214	Abbeville,Alabama,United States (United States, United States & Canada)	Demo	P	Female	Specialty Training	Handler Training	25%	No
12	15 Jan 2021	205	Abbeville,Alabama,United States (United States, United States & Canada)	Demo	L	Other	Advanced K9	K9 Training	1%	Yes
11	15 Jan 2021	204	Chicago,Illinois,United States (United States, United States & Canada)	Demo	M	Female	K9 Training 101	K9 Training	10%	No
10	2 Jan 2021	200	Abbeville,Alabama,United States (United States, United States & Canada)	Demo	X	Male	Handler Training 101	Handler Training	3%	Yes
9	1 Jan 2021	199	Chicago,Illinois,United States (United States, United States & Canada)	Demo	(not set)	(not set)	Handler Training 101	Handler Training	2%	Yes
7	15 Dec 2020	234561	Orlando,Florida,United States (United States, United States & Canada)	Demo	Z	Female	K9 Training 101	K9 Training	5%	No
6	10 Oct 2020	123456	Orlando,Florida,United States (United States, United States & Canada)	Demo	Y	Other	Advanced Training	Specialty Training	0%	Yes
5	15 Sep 2020	432112	Washington, DC (United States, United States & Canada)	Demo	B	Female	Advanced Training	Specialty Training	10%	No
4	1 Sep 2020	432112	Washington, DC (United States, United States & Canada)	Demo	A	Male	K9 Training 101	K9 Training	1%	Yes
3	3 Aug 2019	123456	Washington, DC (United States, United States & Canada)	Demo	G	Male	K9 Handler Training	Handler Training	2%	Yes
2	2 Aug 2019	123459	Washington, DC (United States, United States & Canada)	Demo	F	Female	K9 Training 101	K9 Training	0%	Yes
1	1 Aug 2019	567341	Washington, DC (United States, United States & Canada)	Demo	H	Female	K9 Handler Training	Handler Training	3%	Yes

NOTE: If you left any fields blank (as shown in the example above) or otherwise need to correct or update individual rows of data, you can click the blue pencil icon to the left of the row or rows to edit fields manually. This will cause the data form for manual entry to appear (see [here](#)). You can adjust or update your data table in this way regardless of how the data was originally uploaded (via template or direct entry).

C.19 Update Data Table Indicator via Template

Once you have updated the data table for the reporting period, click Done. DevResults will return you to the **Indicators** tab to continue entering data for the rest of the indicators in your project's reporting period.

DevResults

Done

NOTE: If you cannot provide data for all fields and must leave blanks (as shown in this example), be sure to provide a comment using the **Discussion** tab (see next slide) about why the data table could not be updated in full for the incomplete rows of the data table.

C.20 Update Data Table Indicator via Template

If you need to add any comments regarding your data table (i.e. in the case of blanks, missing rows, or other necessary explanations), click on the **Discussion** tab as shown below.

Add a message for your team (including INL approver) as needed. Hit **Post** to complete.

The screenshot displays the 'DEMO Project: K9 Units' interface. At the top, a breadcrumb trail shows 'Home > Program Info > Time > Reporting Periods > 2021 Jan-Mar > DEMO Project: K9 Units'. A 'STATUS' dropdown is set to 'In Progress'. Below the title, there are tabs for 'Indicators', 'Data Tables', 'Narrative', 'Discussion', and 'Forms'. The 'Discussion' tab is selected and highlighted with a red box. A red arrow points from this tab to the 'Discussion' section below. In the 'Discussion' section, a user has posted a comment: 'Regarding Demo K9 Training Program Data Table: Emailed user for clarification of handler surname and gender for K9 ID 199 on 2/1/21. Will update data table upon receipt of information on 3/1. Please contact if have questions.' The 'Post' button is also highlighted with a red box. To the right of the comment, a list of users is shown under the heading 'These users will be notified of comments'. Below the comment, it says '14 days ago'.

Code	Indicator	Data Source	Geographic Disaggregation	Warnings	Comments	Previous Results	Current Results	Target	% Target Reached
EG.01	DEMO INDICATOR: Project responses	Data Table	World						0%
KM.DDL02.01	DEMO % of canines in K9 unit with current certification	Direct Entry	Location						0%
KM.DDL02.02	DEMO U.S. dollar value of detected illicit goods per year	Direct Entry	Location				108,650		0%
KM.DDL02.03	DEMO % of EUM inspections that identify a deficiency	Direct Entry	Location						0%
KM.DDL02.04	DEMO % of planned K9 team deployments that occur to the place at the time called for in the operations plan	Direct Entry	Location						0%
KM.DDL02.05	DEMO % of kennels that meet EUM standards upon inspection	Direct Entry	Location						0%
KM.DDL02.06	DEMO % of K9 transport vehicles that have kennels and the kennels are climate controlled	Direct Entry	Location						0%
KM.DDL02.07	DEMO % of INL quarterly K9 unit assessment reports that identify missing equipment listed in the INL standard equipment list	Direct Entry	Location						0%
KM.DDL02.08	DEMO % of detection canines that have received all vaccinations based on INL's vaccination schedule	Direct Entry	Location						0%
KM.DDL02.09	DEMO % of canines for which INL received quarterly health reports conducted by a licensed veterinarian	Direct Entry	Location						0%
KM.DDL02.10	DEMO % of detection dogs that graduate from an accredited canine training facility	Direct Entry	Location						0%

Once you have added any comments, click the **Indicators** tab to continue entering data for the rest of the indicators in your project's reporting period.

Next Steps

Data Entered: Now What?

Once you have entered results for all indicators, you may proceed to **Enter Narrative Responses**, **Submit Data**, and **Request an Automated Performance Report**.

Detailed guides on how to complete these steps are available on the INL User Guide site ([here](#)).

If you were *not* able to enter data for all indicators, discuss revisions with your DME specialist or KM/DDI to coordinate making changes to indicators as necessary. See also the user guide on documenting changes to indicators, located on the [INL User Guide](#).

Welcome to the DevResults user guide for INL

DevResults is a cloud-based program monitoring database. This database will enable INL staff and U.S. government officials around the world to store, access, and visualize accurate and useful program monitoring data in one place.

- You can access your DevResults site at inl.devresults.com.
- Your training site can be found at inl.training-devresults.com. Learn more about [training sites](#).
- Need access? Reach out to INL-DvR-Mailbox@state.gov to request a new account. For implementing partners, your INL program POC must request an account for you. Once you've been added, you can gain access to the site.

This page provides materials designed to aid INL staff and implementing partners with the DevResults platform. Users will find resources such as standard operating procedures (SOPs), training videos, reference documents and guidance on using DevResults for INL program monitoring needs. Select a topic area below or simply scroll to review all available resources.
