Form Templates: Indicator

Last Modified on 10/08/2025 9:24 pm EDT

The **Forms** tab in DevResults offers some basic tools to help you create reports in Microsoft Word (or PDFs). You can create form templates for projects, for a single reporting period/project combination, and for indicators. This page provides placeholders and access instructions for the Indicator Form Template type. For detailed instructions on how to use forms, create form templates, format dates, and format text, please see: **How to Use Forms**.

List of Indicator Form Template Placeholders

How to Access this Form

You can access an Indicator Form by following these steps:

1. Go to Results->Indicators.
2. Select the indicator you want to view.
3. When the indicator definition page opens, click the **Forms** tab.
4. Click on the form you wish to view; it should automatically download.
