

Enter 'Direct Entry' Data

Last Modified on 08/15/2024 5:03 pm EDT

There are several ways to add or view indicator results. This page describes the best place to edit or review indicator results (or an activity's data entry status) for a particular reporting period.

- **Enter data online**
- **Enter data offline (via Excel)**

Both options require navigating to an Activity Reporting Period page. To do so, go to the **Data** menu and select "Per Reporting Period" under the options to Enter Data.

Click on the reporting period you would like to enter data for.

The screenshot shows the 'Per Reporting Period' page in DevResults. It features a search bar and a table of reporting periods. An orange arrow points to the '2018 Q1' row, which is highlighted. A 'New Reporting Period' button is visible at the bottom right.

The screenshot shows the DevResults interface for 'Capable Local Governance' in 2018 Q1. The page title is 'Capable Local Governance' with a status of 'In Progress'. Below the title, there are tabs for 'Indicators', 'Data Tables', 'Narrative', 'Discussion', and 'Forms'. A search bar is present with the text 'Search indicators'. The main content is a table with the following columns: Code, Indicator, Data Source, Geographic Disaggregation, Warnings, Comments, Previous Results, Current Results, and Target. An orange arrow points to the 'Code' column header.

Code	Indicator	Data Source	Geographic Disaggregation	Warnings	Comments	Previous Results	Current Results	Target
4.1-a	# person-trainings in post-seco...	Data Table	Location			74	203

F-4.1.3-a-N	# USG-funded tertiary educatio...	Direct Entry	Prefecture					
F-4.2.3-c	# person-hours of teachers/ed...	Direct Entry	Prefecture					

This page shows the geographic and demographic disaggregations required for the indicator (if any). Totals are generated automatically. You can click on a single cell to add or edit data. The far right column provides the opportunity to add narrative comments for each geographic disaggregation.

The screenshot shows the detailed view of indicator '12-a # jobs attributed to USG intervention'. The page title is 'Capable Local Governance' with a status of 'In Progress'. Below the title, there are tabs for 'Indicators', 'Data Tables', 'Narrative', 'Discussion', and 'Forms'. The indicator is identified as '12-a # jobs attributed to USG intervention' with a unit of 'Jobs' and no disaggregation. A table for data entry is shown with columns for Region, Result, and Comment. The 'Region' column lists 'Boké', 'Faranah', and 'Kankan'. A checkbox for 'Recalculate logic checks' is visible at the top right of the table.

Region	Result	Comment
Boké		
Faranah		
Kankan		

If no rows appear on this page for data entry, **check on the geographic areas of focus for that activity**.

To enter a summary comment for the indicator for this reporting period (instead of separate comments for each geographic place where you report), go back to the page that shows all indicators assigned to the activity for this period. Scroll to the right to the **Summary Comment** column to add a comment for each indicator. If you don't see this field, click on the gear menu and enable the summary comment checkbox.

In the popup window, make sure all technical areas are selected if you want to report on all of your activity's indicators. Otherwise, check the boxes for just the indicators for which you want to report results. Click **Download**. This downloads an Excel file to whatever folder your computer uses for downloads, such as the Downloads folder or your computer's Desktop.

Tip: If you would prefer a separate template for each location or administrative division where you report data, you can click on the **Export** dropdown and select to export separate files for the geographic disaggregation of interest. This will download a zipped file with templates for each location or administrative division (like province or district). When you've collected the completed templates, put them back into a zipped folder (you can change the names of the files and folder) and then upload the zipped folder.

Fill out the Excel template like any normal Excel file. You can change the name of the file, but the file will not let you change the row or column headings.

Fill out the Excel template like any normal Excel file. You can change the name of the file, but the file will not let you change the row or column headings.

- NOTE: Your spreadsheet may have multiple tabs for each geographic disaggregation for each technical area.
- In each tab, the rows show the places (location/district/region/ etc.) where you should report indicator results.
- The columns show the indicators (plus disaggregations) that your activity should report. There is a column to enter comments for each indicator for each place.
- You do not need to enter any totals for an indicator's disaggregations or geographies. DevResults does this automatically.

If any of the places where you need to report indicator results do not show up, you might need to:

- **Define a location**
- **Assign a geography to an activity**
- **Check the configuration of activities to reporting periods to technical areas to places**

If any of your indicators do not show up, you might need to:

- **Add an indicator**
- **Assign an indicator to an activity**

When you're ready to upload your data, click on the gear icon and then **Upload results template**.
