

Assign an Indicator to an Activity

Last Modified on 03/24/2020 6:07 pm EDT

For an activity to report on an indicator in DevResults, the indicator must be assigned to that activity.

First, go to the **Program Info > Activities** and select your activity. Scroll down to the **Classification** section and click on **Select indicators**.

The screenshot shows the DevResults interface for an activity named "Delivering Basic Nutrition" under "Mijelshon Incorporated". The "Classification" section is active, showing a table with columns for "Indicator" and "Reporting Cycle". Below the table is a button labeled "+ Select indicators...". An orange arrow points to this button. The interface also includes a navigation menu with options like "Overview", "Performance", "Budget", "Geography", "Checklists", "Forms", "Documents", and "Calendar".

On the popup window that appears, expand the results framework(s) by clicking on the right-pointing triangles.

- You can **assign all of the indicators** under a part of the results framework by clicking on the checkbox next to that objective, such as *1.3 Property rights* (shown in orange).
- You can also **assign single indicators** by only clicking on the checkboxes for those particular indicators, leaving the others clear.

When you've made your selection, click **Save**.

Select Indicators ✕

The following results and indicators are associated with this activity:

- ▼ Main Framework
 - ▼ 1 Agriculture
 - 1-c # individuals who have received USG supported long term agricultural sector productivity or food security training
 - ▼ 1.1 Productivity
 - ▶ 1.1.1 Sustainability
 - ▶ 1.1.2 Market access
 - ▼ 1.3 Property rights
 - 1.3-c # land governance actors receiving training or upgraded facilities/equipment
 - 1.3-d # person-hours of training completed by government officials
 - ▼ 2 Democracy, Rights, and Governance
 - ▶ 2.1 Civil Society
 - ▼ 3 Health
 - ▶ 3.1 Access
 - ▶ 3.2 Systems
 - ▶ 3.3 Nutrition
 - ▼ 4 Education
 - ▶ 4.1 Access
 - ▶ 4.2 Quality
 - ▶ 4.3 Agricultural research
 - ▶ Foreign Assistance Framework

Note: Indicators that do not report per activity cannot be selected. Results are linked to activities based on the indicators assigned to activities.

✔ Save

All of the checked indicators are now assigned to this activity.

Indicators are assigned with their default reporting cycle (defined on the indicator's definition page), but **each indicator's reporting cycle can be edited for an activity** .
