

Find Knowledge Base

Last Modified on 06/29/2018 12:38 pm EDT

The knowledge base is linked from every page of DevResults

Click on the **Help** button in the top right hand corner. You will see a dropdown menu of options for your account. You can either:

- Search for knowledge base pages directly in the search bar or
- Click on **Knowledge base**. This will take you to the index page for the knowledge base.

The "For this page" section shows knowledge base pages that might be relevant to the DevResults page you're on.

The "My user guide" menu item shows knowledge base pages relevant to those with your permission levels.
