

Edit Your Profile

Last Modified on 02/21/2020 2:31 pm EST

If you would like to make any changes to your profile, including changing your profile picture, first click on your profile picture (or default initials) at the top right corner of the page and select "Edit profile".

The screenshot shows the DevResults dashboard for Francine Kotodzou. The user's name and profile picture are in the top right. A dropdown menu is open, and the 'Edit profile' option is highlighted with an orange box. The dashboard includes a navigation menu, a search bar, and several data visualization tiles such as 'Activity Map', '1-c # individuals who have received agricultural productivity or fo...', '3.1.2-b # HIV-positive people who received antiretrovirals to reduce risk of t...', 'Activities', and '1.3-d # person-hours of training on land tenure & prop...'. A language selection menu is also visible, showing options like English, Français, Español, etc.

Then you can update your profile picture and your password, add in additional information about yourself, select an email notification frequency, and sign up for feature alerts or to be a beta user.

The screenshot shows the 'Edit Profile' form. It is divided into several sections: 'Photo' with an 'Upload photo' button and a note to drag and drop files; 'Contact Details' with fields for Name (Francine Kotodzou), Job title (Program Management Specialist), Department, Email (francine.kotodzou@devresultsdemo.com), and Work Phone (+224 555-952-7260); and 'Preferences' which includes a 'Password' section with a 'Change password' link, 'Email Notifications' with radio buttons for 'whenever there is an update', 'once per day', 'once per week', and 'never', and 'Additional Communications' with checkboxes for 'I would like to get advance notice of major new features' and 'I would like to be a beta tester'. A 'Done' button is at the bottom right.
