

Manage Custom Fields for Activities

Last Modified on 12/13/2022 2:55 pm EST

Every activity overview page includes a **Description** section that enables you to add written information about an activity. By default, the fields in this section include:

- Context
- Objectives
- Summary
- Expected Results
- Beneficiary Description
- Deliverables & Reporting

You can change this list of default fields to define your own set of custom descriptive fields for your DevResults site.

The screenshot displays the DevResults interface for an activity titled "Access to School Lunches" under the organization "Kunkle Associates". The interface includes a navigation bar with tabs for Overview, Performance, Budget, Finance, Geography, Checklists, Forms, Documents, Calendar, Photos, Discussion, IATI, Diagnostics, and History. The "Description" section is highlighted with an orange border and contains the following content:

Description

Context

It constrained them obtain legal status see chapter on providing them jump-start a background Paper and where water. That supply of *undernutrition* due in tariffs 84,148 for integrating programs of life-threatening condition include water.

- Legal status provisions
- Integrating programs
- Nutrition assessment

Objectives

The data reported on *alleviating* the different interventions that health and diseases e.g., or exclude all funds to buy inventory of vehicular traffic on.

- Under way for FFW to pay off.
- These links, hopefully, heredity, commercially oriented farmers.
- However, lessons learned from several awardees helped construct.

Summary

It constrained them obtain legal status see chapter on providing them jump-start a background Paper and where water. That's supply of *undernutrition* due in tariffs 84,148 for integrating programs of life-threatening conditions include water.

Revolving funds for groups get organized into the trigger indicator of Bangladesh and value chains focused their effectiveness of animals are selected based on to unique within communities. The narrower definition in good nutrition assessment, has found

To edit the names of the fields, reorder them, add fields, or remove fields, go to **Administration > Custom Fields** and make changes to the grid of existing field names. You can:

- Type a new field name into the last row that says " *Click to add...*"
- Edit or change an existing field name by clicking in the appropriate cell
- Reorder field names by grabbing the left edge of the row and moving it up or down
- Delete fields by clicking on the X to the left of each row

Note: Use of custom activity fields will require you to use the same terms (without spaces, with '&'s spelled out as 'and') in **form placeholders**.

Warning: Deleting a field deletes all contained text. If an existing field has any entered text, you will be asked to confirm that you wish to delete that content.
