

# MultiMatrix Basics for Partners

Last Modified on 07/08/2025 12:32 pm EDT

Partner users can create MultiMatrix dashboards in DevResults that allow them to view all of their indicator data. To use this feature, **Partner Dashboards must be enabled in your DevResults site**.

To create a MultiMatrix dashboard as a partner, click on Add Dashboard.

Click **Select Indicators**.

To include all indicators, click the top checkbox in the indicator list (or if you want, choose just a few). Click **Select**.

Congratulations! You've created a MultiMatrix dashboard that shows all of your activity's data.

- In the configuration panel, use the **Indicators** section to change what indicators are included.
- Use the **Display** section to change the column and row options, to include disaggregations, or to show targets and calculations.
- Use the **Filters** section to change what data is included, such as including only particular disaggregation categories or reporting periods.
